

The KID

The finest 30 amp MPPT charge controller for Solar, *Wind or *Hydro!

The KID is the most versatile medium sized charge controller on the market. Ideal for small renewable energy systems. The KID even allows for true input paralleling.

** Wind & Hydro available second quarter of 2014 with firmware updates.*

With three different mounting methods: flush mount, surface mount or free standing, the KID will be the sharpest looking electronic device in your home, cabin, boat or RV. Available first quarter of 2014.
