

Put your SMA Grid tied inverter to work during a power outage!

MidNite Sunny Island AC Coupled System

*The ONLY plug and play
AC Coupled System Available*

SMA has engineered hands down the best AC coupled system on the planet. *Grid tie with battery backup? This is the way to do it!*

The Sunny Boy/Sunny Island combination was designed for AC coupling. MidNite Solar makes it simple to install.

Batteries not included

A single 120/240 volt inverter system comes pre-wired with a 5000 watt toroidal autoformer, MidNite E-Panel, SMA 5048-US inverter, MidNite surge arrestors, mounting plate, MNBE-D battery enclosure and cabling.

Systems are available for 1, 2, 3 and 4 Sunny Island inverters. An automatic transfer to generator option is also available. Pre-wired systems and components can be purchased at your favorite solar distributor.

Available first quarter of 2013
